

# PROFESSIONAL BIOGRAPHIES LESSON PLAN

# Introduction:

This assignment is intended to help participants make connections to their discipline. There are three parts to the assignment: Professional Biographies, Interview, and Short Essay. The goal is to increase participants' knowledge about careers in their chosen field, how people around the world prepare for and practice their profession, and what (if any) intercultural skills have proven helpful in these careers. Participants will conduct an informal interview (face-to-face and ideally over coffee or an inexpensive meal) with a professional, grad student or professor/teacher working in their chosen field in their host country.

### **Facilitator Notes:**

This activity is designed for students who are studying abroad. Purdue students who have succeeded in interviewing a cultural informant in a profession related to their field have found it to be beneficial.
