WELCOME TO EXPERIENTIAL TOOLS

Founded by author and educator Jennifer Stanchfield, Experiential Tools is dedicated to the art of experiential group facilitation and teaching. [The Inspired Educator Blog](#), [workshops](#), [professional development programs](#), [books](#), [facilitation and teaching tools](#), are a result of Jen's creative spirit, practical knowledge and years of experience. Her aim is to help educators fill their toolbox with quality, unique, and user-friendly methods to enhance learning, facilitate group development, and engage learners in the process of meaningful reflection and dialogue.
